- Shoes should be soft, knitted booties, and tennis shoes for outdoor play (no boots or sandals please)
- Several bibs are required daily during teething period.

FOOD

1. Because of the different feeding stages that infants go through, the food should be brought from home on a daily basis. Every week parents/guardians need to fill out a form indicating the food schedule for their infant child. This form needs to be signed and updated every week.
2. For infants that are able to eat table foods, we can provide fresh cooked meals from the school's kitchen for \$2.00 a day.
3. If your infant is taking formula, please bring the formula and bottles, indicating the exact amount and feeding schedule; we will prepare the bottles at the proper time.
4. At approximately four months, your child will begin the introduction to solid food; we highly recommend preparing fresh baby food daily. Try to avoid baby canned food as much as possible.
5. Between five and 6 months, your child will start to sit at the low tables to eat; we will provide a spoon, plate and regular drinking cup which will facilitate the process of learning to eat independently. We suggest you do the same at home to create a consistent pattern.
6. At this point, try to avoid the use of a **"zippy" cup** to avoid confusion. Six month old infants are ready to drink from a regular, small cup. We also encourage you to begin the process of slowly weaning your child from the breast or bottle. By 12 months, infants should be completely weaned.
7. We do not recommend the use of **pacifiers** at **any time** during this important period of infancy, to avoid creating a dependency on an object.

- 2 fitted crib sheets
- 1 small cotton blanket
- 1 small toothbrush and small toothpaste
- 1 6oz. plastic cup
- 1 small hairbrush or comb

NOTES:

1. **Clothing:** All the articles of clothing must be easy to put on and take off; remember that children are learning to dress and undress themselves: bring pants, shorts or skirts with elastic bands (no overalls), comfortable shoes like tennis with Velcro closures (*no lights or cartoon designs, and no cowboy boots or sandals*). Undershirts should not be complete body with snaps (onesies).
2. **Toilet training:** Your child will be ready to start learning to use the toilet at about 14 to 18 months of age or earlier. The teacher (guide) will let you know when is the right time to bring disposable pull-ups to begin the process; these pull-ups will only be temporary, because the goal is for your child to use the training cotton underpants to successfully complete the potty-training process. We ask for your total commitment to do the same at home to avoid confusing your child and making this, a very long and difficult process.
3. **Snack:** The daily snack is provided by the parents about twice a month. You will receive a weekly list with the schedule. The snack will generally consist of natural juices, fresh fruit of the season, vegetables, and crackers with cheese (no desserts or cookies please).
4. **Toys.** Children are not allowed to bring toys to school. Books are always welcome and encouraged.
5. **Lunch:** The lunch routine is designed to engage the children in setting the table, serving themselves, practicing table manners, and cleaning procedures. A hot, nutritious lunch is provided by the school for all the students in this environment for an additional fee.
